

NUSHU X

magnes

NUSHU X is a smart shoe, which utilizes advanced sensors and AI. It helps improve walking and prevent freezing of gait with instant vibrational feedback. You can track your walking pattern and health using NUSHU X to enhance your mobility and independence.

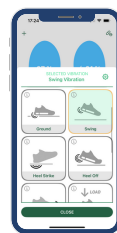

Key Features

Real-Time Walking Analysis

Analyze your steps in real-time to get immediate feedback on your movements.

Track your Progress

Track your daily progress to get insights about your mobility and overall health.

Vibration Feedback

Personalized vibration feedback that adapts to your own walking pattern.

Regain Independence

Confirm your steps with vibrations to get confidence in walking.

2261 Market Street STE 5508
San Francisco, CA 94114
